## HEADRED WEB DEVELOPER

| 13<sup>th</sup> May 2016

### **Company Profile**

HeadRed is a Coventry based digital agency established in the year 2000, experienced in web design, development, ecommerce, corporate branding, graphic design, social media, PPC (pay per click) and SEO (search engine optimisation). We're constantly growing and have an incredible portfolio of projects and clients, forging lasting relationships. We have a prestigious reputation for quality, boasting very best websites around the West Midlands and Warwickshire.

### **The Role**

A Web Developer is sought by for immediate appointment by a fast growing agency in the West Midlands. This position is an opportunity not to be missed as you will have the chance to work with a number of diverse clients on a range of different projects. You'll be a top notch programmer, who's able to diagnose problems as well as solve them.

### **Job Specification**

The successful candidate will be working with our Bespoke built CMS\ecommerce platform. These systems are developed using PHP frameworks of CodeIgniter and Laravel, so experience with these frameworks would be preferable.

Candidates must have a passion for technology and a methodical approach to problem solving and have the ability to take ownership with respect to development and implementation.

Duties and Responsibilities:

- Develop and implement enhancements to new and existing Ecommerce Website.
- Develop and implement enhancements to new and existing Client websites (Bespoke development, Wordpress)
- Proactively offer solutions to technical problems and implement solutions

Qualifications

- 2-3 years Commercial experience with building custom built Websites.
